Lasse Wingreen

Product Owner | SaaS | Digital Design

Aarhus, Denmark | lasse@wingreen.dk | +45 28 57 81 89

Profile

I'm a Product Owner with close to nine years at iPaper, progressing from customer support through implementation to product ownership. I turn complex needs into practical specifications and work closely with developers to clarify the details. My recent work spans e-commerce checkout, product views and accessibility across Flipbook and Horizon. I bring a hands-on understanding of SaaS, a background in digital design and a lasting interest in making technology useful to people.

Experience

iPaper · Aarhus

Nov 2017 – 2026 | B2B SaaS

Product Owner

Sep 2023 – 2026

- Specified the full project to improve the e-commerce checkout experience and product view, working through requirements with developers.
- Worked on a full accessibility suite for Flipbook and specified an accessibility suite for Horizon.
- Specified Horizon's energy-rating system and numerous other product issues as the new product developed.
- Worked closely with developers throughout specification and clarification, and participated in regular Scrum ceremonies.

Senior Implementation Specialist

Jan 2022 – Sep 2023

- Helped new and existing customers set up iPaper, including automation, Google Analytics and Google Tag Manager.
- Worked with customers on technical configuration and how the product fitted into their wider marketing setup.

Implementation Specialist

Jan 2020 – Jan 2022

- Implemented iPaper's SaaS products in new and existing customers' marketing setups.
- Enabled and customised automation; advised on data sources, including Google Merchant feeds, analytics and tag management.

Support Specialist

Nov 2017 – Jan 2020

- Provided customer support with a focus on helping people use the product effectively and get value from it.

Lasse Wingreen

Earlier experience

Customer Success Manager

AccuRanker | 2017

Customer support and sales; developed support articles and automated communication using Intercom and HubSpot.

Web / SEO Manager

AudioNation | 2016 – 2017

Worked with WordPress landing pages, technical SEO, HubSpot, Google Tag Manager and analytics reporting.

IT Supporter

GECKO Booking | 2014 – 2016

Supported customers, helped integrate booking functionality into their websites, tested new features and produced guides and training materials.

Earlier technical and creative work

2010 – 2014

NemID support at CGI in two periods alongside my studies; internet support at TDC; iOS development at Playnation; game audio and implementation at Logic Artists; audio production at M2Film and AudioNation.

Education

MSc / cand.it. in Digital Design

Audio Design · Aarhus University | 2010 – 2012

BSc in Medialogy

Aalborg University | 2007 – 2010

Capabilities

Product work. Product specifications, user stories, requirements clarification, developer collaboration, Scrum, accessibility specification.

SaaS implementation. Automation, data feeds, Google Analytics, Google Tag Manager, customer onboarding and technical support.

Tools and technical background. Jira, Asana, Intercom, HubSpot; working knowledge of HTML, CSS and JavaScript.

Languages. Danish and English: fluent, written and spoken.

Beyond work

Music has been a constant alongside my work. My background includes singing, guitar, recording and performing, including with Flow & Green. I enjoy understanding how things work and helping other people get the most out of them.
